IMPORTANT NOTES	<p>The tuition fees (shown in Australian dollars) are based on a normal full-time workload of 100 credits per semester (200 credits per year) unless otherwise stated. Students studying more than 100 credits per semester will have a higher annual tuition fee. The tuition fee is calculated and charged on a semester or, where appropriate, trimester basis.</p> <p>A student should expect that the indicative semester/trimester course fee, as shown on the Letter of Offer, might vary from the actual tuition fee according to the units (subjects) undertaken.</p>		<p>The indicative fee is a guide as to what the actual tuition fee will be. The actual tuition fee is not calculated until enrolment is completed.</p> <p>To calculate the actual course fee, you can refer to the unit (subject) fee that is listed at <a href="http://www.fees.curtin.edu.au/unit-fees.cfm">www.fees.curtin.edu.au/unit-fees.cfm</a></p> <p>All fees listed are subject to annual increases. Information is correct as at November 2005, information published is subject to change.</p>	

## Trimester Studies

There are three trimesters in each year, enabling students to progress more quickly through their course. Students enrolled in an accelerated study mode will complete 100 credits each trimester, or a total of 300 credits each year. MBA students may progress to the award of MBA (Specialisation) with the addition of 100 credits, or one trimester of study. The five courses below are offered on a trimester basis.

<b>IMPORTANT NOTES</b>	<p>Masters by Research and Doctoral students may enrol at any time during the academic year and submit a thesis for examination at any time of the academic year. A research students tuition fee is equivalent to the combination of units, including thesis load and coursework credits, undertaken per academic year (consisting of 50 weeks). The fee is normally payable in advance in two equal instalments. However, where the students' enrolment makes this impractical, special billing arrangements will apply.</p>		<p>Initial and final determination of the fee liability for research students will be based upon the date of enrolment and the date of submission of the thesis as a proportion of 50 study weeks rounded down to the nearest week. Tuition fees are shown in Australian dollars. All fees listed are subject to annual increases. Information is correct as at November 2005, information published is subject to change.</p>
